Determination Test (S5)

Normal Reaction - Correct	174	A	Good
Number of Reactions	183		
Stress / Crisis Management - Correct	173	A	Good
Number of Reactions	182		
Recovery Phase - Correct	170	A	Good
Number of Reactions	178		
Overall Determination Test	517	A	

Two-Hand Co-ordination (S2)

Overall Mean Duration	39,06	A	Good
Error Duration %	1.17%	A	Good
Overall Two-Hand Co-ordination		A	

Time-Motion Anticipation ZBA (S2)

MDT (Time Total)	1,00	B	Average
MDD (Direction Total)	55	A	Good
Overall Time-Motion Anticipation ZBA		A-	

FINAL OUTCOME

94	A

DETERMINATION TEST (S5)

Measurement of performance under NORMAL Conditions.

A GOOD performance and GOOD organizing of visual, auditory and reaction skills. The candidate is able to organize thinking and reactions in an appropriate manner. Eye-Hand-foot co-ordination is GOOD.

Measurement of performance under STRESSFUL or PRESSURIZED conditions.

High stressphase - organization of auditory, visual and reaction skills is GOOD. The candidate's Management of Crisis situations is GOOD.

Measurement of RECOVERY from the previous stress management phase.

The candidate displays a GOOD ability to recover from a stressful situation and to return to a normal level of coping.

SUMMARY OF DETERMINATION TEST

The candidate's overall performance in the candidate's test is GOOD.

TWO-HAND CO-ORDINATION (S2)

General Manual Co-ordination speed (the candidate's ability to correctly and accurately relate to movement in a co-ordinated manner such as driving in traffic) is GOOD. General Manual Co-ordination accuracy (the candidate's ability to correctly and accurately relate to movement in a co-ordinated manner such as driving in traffic) is GOOD.

General Manual Co-ordination is assessed as being good.

Trainability Potential (2 Hand Co-ordination) has not been completed

TIME-MOTION ANTICIPATION ZBA (S2)

The candidate tested as AVERAGE for speed and distance judgement especially in complex situations. The mean direction deviation is the anticipation and estimation of speed, distance and direction of linear and curved movements. This is a complex test of movement judgement. The candidate tested as GOOD for direction judgement.

The candidate's overall estimation ability regarding moving objects, such as other vehicles on the road, is assessed as being GOOD .

FINAL RESULT

The candidate's overall performance on this test identifies him as an A candidate.
